

I'm writing on behalf of K-LOVE radio. This radio station provides me and my family continuous Christian music, prayer, scripture readings and much more. We have come to love this station, and consider it a big part of our day. It is truly an inspiration to all that listen. We hear it coming out of Glenwood Springs, CO as we live in Grand Junction, CO. The church I attend in Grand Junction listens to this station and promotes it. All my friends and family listen to K-LOVE and say it is a needed part of their family to continuously be uplifted by Christian singers and K-LOVE's staff members. It would be a crime to have this radio station taken off the air. The service provided by K-LOVE is very much in the public's interest. The wickedness in our world today is scary! And I know plenty of children from babies to teenagers who listen on a daily basis and need that positive, encouraging reinforcement!!!! To be forced off the air would be a spiritual tragedy!!!! Please, don't allow Low Power FM to eliminate what little good is left in radio. Thank you for reading this.
